

Champagne Guenin Effloraison Brut Nature

In the picturesque village of Essoyes, Axelle and Sébastien craft characterful, organic champagnes on Chablis-like Kimmeridgian limestone soils. Driven by spontaneous fermentation in old oak and an uncompromising, zero-dosage Brut Nature style, this is Champagne in its purest, most gastronomic form: intense, razor-sharp, and vibrantly mineral.

This is Sébastien Guenin's liquid statement: a razor-sharp, zero-dosage blend of Pinot Noir and Chardonnay that directly channels the Chablis-like limestone soils of Essoyes. Driven by spontaneous fermentation and aging in old oak, it boasts an intense, vinous structure packed with crisp citrus, wild flowers, and a vibrant, saline tension.
